

# Résumé

---

Name: Lanzheng Liu (Zayne) - [Github](#)

Email: [zayneliu@hotmail.com](mailto:zayneliu@hotmail.com)

---

## Soft skills

---

- Very fast learner, lots of hands on experiences in coding.
- Passionate about new technologies and willing to learn.
- Very keen on writing clean, elegant and yet maintainable code.
- Problem solving attitude.
- Happy to learn from others and to help others as well, by sharing my knowledge.
- Team player, exciting to be part of a team.

## Tech stacks

---

- Fluent in `JavaScript/TypeScript`, `Python3`, `C#`.
- Deep understanding in OOP.
- `Linux` experiences ( `Ubuntu`, `Debian`, etc.), exposure to container Technologies (e.g. `Docker` ).
- Comfortable with CLI (command-line interface) and yet have decent understanding in Web UI.
- Framework wise, I'm extremely comfortable working in `Vue.js`, `Flask`, `.NETCore`, etc.

## Tech stacks in depth

---

- Full-Stack Web Development
  - Front-end
    - `Vue.js` (version 2.x and 3.x).
      - `vite` (utilising ES Module support in browsers to speed up development process).
      - `vuex` (state management)
      - `vue-router` (SPA routing)
      - Exposure to `SSR` (Server-Side Rendering)
    - `HTML`, `JavaScript`, `CSS` (`Flexbox`, `Scss`, `Bootstrap` ).

- Back-end
  - REST API
    - `Flask` , `Django` (Python web framework).
    - `Node.js` (Express.js, etc).
    - `ASP.Net Core` (.NET Core API Server).
    - `Swagger` (REST API Documentation).
  - Exposure to `GraphQL` , `Deno` (runtime for `JS` and `TS` ).
- Database
  - No-SQL / Document Database (e.g. `MongoDB` , `CouchDB` , etc.).
  - SQL Database (e.g. `SQL Server` , `SQLite` , etc.).
  - Key-value Database (e.g. `Redis` )
- Mobile Development & Desktop Development
  - `React Native` (TypeScript)
  - `Xamarin` (C#)
  - `Electron`
  - `nw.js`
- Web Scraping ( `selenium` , `python-httpx` , `BeautifulSoup` , `request` )
- Misc.
  - Git / GitHub
  - Markdown

To be continued...

## At the very end.

---

The skills mentioned above are only the ones I can think of when I'm writing this résumé. As I've said in the beginning, I'm a fast learner and I've learnt many different and interesting technologies, however, since I'm still studying at university, I only got a few chances to participate in a project within a collaborating environment. So I'm very excited to join the team.

Regards,  
Zayne :)
